

Knowledge Organiser

Year 2

Subject: Science

Main Learning: Animals and their habitats

Key knowledge	
Know that animals have preference about the habitats they live in	
	Identify and name plants and animals in a range of habitats
	Know how a specific habitat provides for the basic needs of things living there
	Match living things to their habitat
	Know how animals find their food
	Name some different sources of food for animals

Vocabulary	
habitat	Is a place that an animal lives. It provides the animal with food, water and shelter
rainforest	A habitat with a tropical forest with tall trees, warm climates and lots of rain
desert	A habitat that gets very little rain each year. Very few plants or animals live in desert areas
species	A group of animals, plants or other living things that all share common characteristics and that are all classified as alike in some way
pond	A body of water smaller than a lake. Ponds provide a habitat for a very wide range of wildlife
indigenous	Produced, growing, living, or occurring naturally in a particular region or environment
